

EDITORIAL

We are presenting the 17th Volume of the magazine *Guidance and Society* that will be published in paper and also in a digital version at Portal Scielo.

As we've received so many works, both national and foreign, we can see how in different latitudes, Guidance points of view have widened and diversified through different proposals in diverse populations.

It is a pleasure for us to share with you that through AIdOEL -Asociación Iberoamericana de Orientación Educativa y Laboral- (Ibero-American Association of Educational and Labor Guidance) we will carry out in November 2018, the third Ibero-American Guidance Congress, CIO III *Guidance Voices in Latin-America*. This event will take place in the Psychology School of the National University of Córdoba, where the statute was signed, at the 100th anniversary of the University Reform.
