

Material Suplementario de:

JUAN MARTÍN PAREDES DEL PUERTO *ET AL.* CARACTERIZACIÓN DE LA AVIFAUNA E ICTIOFAUNA ASOCIADA A LOS BAÑADOS DE DESBORDE FLUVIAL DE CUATRO ARROYOS PAMPEANOS CON USO DE SUELO CONTRASTANTE (BUENOS AIRES, ARGENTINA). BIOLOGÍA ACUÁTICA. 2020;35:01-12.

Tabla 1. Lista de las especies aves registradas en los sitios de muestreo, tipificación según su relación de dependencia del ambiente acuático (A.A.) o terrestre (A.T.) según el criterio de Martínez (1993) y según su respuesta a los disturbios antrópicos (D.A.) de acuerdo con López-Lanús *et al.* (2008) como SB: sensibilidad baja, SM: sensibilidad media, SA: sensibilidad alta, F: favorecidas. CHU-Rur: Chubichaminí, CJ-Rur: Cajaravilla, CNV-Per: Carnaval y GAT-Per: del Gato.

Table 1. List of bird species recorded in the sampling sites, classification by their dependence relation with aquatic (A.A.) or terrestrial environment (A.T) according to Martinez (1993) and classification by their response to antropic disturbances (D.A) according to López-Lanús *et al.* (2008) as SB: low sensitive, SM: medium sensitive, SA: high sensitive, F: favored species. CHU-Rur: Chubichaminí, CJ-Rur: Cajaravilla, CNV-Per: Carnaval y GAT-Per: del Gato.
